• Narrow Bezel Design

Ideal for commercial use (narrow bezel design enables monitors to be tiled making them ideal for trading floors, banks, airports, and design centers etc.) Ergonomic features include Pivot and Height adjust capability.

• FLATRON f Engine - World’s First Picture Enhancing Chip for LCD Monitors

It uses DAFI™ technology which includes a RCM (Real Colour Management) function which allows monitor to display the most vivid and natural colours available on an LCD. Also it comes complete with an ACE (Adaptive Color and Contrast Enhancement) function that enhances brightness and contrast. The technology is ideal for watching videos or displaying high quality photos.

• Crystal Clear Image

The ultra high contrast ratio, fast response time and DVI allow users to enjoy a crystal clear image.

• Certified TCO-03

With more strict regulations than that of TCO-99, TCO-03 certification guar antees the customer an excellent ergonomic and visual environment.
